

Introduction:

Diamond milling wheel (set thick round) mounted on milling machine, line machine , bridge cutting machine,mainly used in ceramic chamfer,appears a high efficiency,long lifespan and stable performance.

Features:

- 1.A matrix of the points of normal steel body and mute
2. We provide professional , quality after-sales marketing services.
3. The sharpness and life is 2 times the ordinary domestic mill wheel.
4. The wheel has a high production efficiency , the shape , size and high accuracy.
- 5.The diamond -thick round sharp , long life, the steel body can use aluminum , nylon material reduces noise.

Specifications:

The followings are the normal specifications of our 45 degree ceramic grinding wheel:

Diameter	Segment quatity	Thickness	Inner hole	Grit
120mm	10T	20mm	20mm	120/140#
150mm	12T	20mm	20mm	120/140#

The above specification is a reference.Other specifications can be ordered by customers.
