

Feature:

Carbide Alloy Bush Hammer Roller

1. Different granularities and sizes as requested.
2. Easy use, high efficiency, 5 times more than manual processing.
3. Flexible adjust work for coarse texturize grinding and fine texturize grinding.
4. We can produce all kinds of long life bush hammer plates for granite and other stone.

Product Description

Segment No.: 45S, 60S, 72S, 99S, Steel Dense Tooth, Vacuum Brazing the repeated hit of carbide tips into stone or concrete surface create a rough, pockmarked texture that looks like naturally weathered rock.

[China Bush Hammer Head For Manufacturer](#), the roughness of the bush hammered surface can be adjusted with our bush hammer through adjustment of spring elasticity on the bush hammer, or through the pressure of the manual grinding machine.

Bush hammer Roller is suitable for surface fabricating, making bush hammered effects for stone products.

Product Specification:

The followings are the normal specifications of our **China Factory Bush Hammer Roller For Concrete Finish**:

Segment No.	Effect	Material	Use
60 Teeth	Litchi Surface	Diamond, Carbide Alloy, Steel	For Bush Hammer Plate, Hand Held Grinding Machine, etc.

The above specifications are for reference, other specifications can be ordered by customers.

Application:

Bush Hammer Roller For Concrete Floor.

[60s Carbide Bush Hammer Wheel](#) are installed in hand and auto grinder machine and bush hammer plate.

Kindly Noted, When Place Order Please Inform The Following:

- 1.Stone Effect□Sandblasted Surface/Litchi Surface□
- 2.Use Object (Marble, Granite Or Other Stone, Concrete And Other Stone)

3.Segment No.(30s, 45s, 60s, 72, 99s, Star, Steel Dense Tooth, Vacuum Brazing)

4.Diameter of the Bush hammer plate(125mm, 150mm, 200mm, 250mm, 300mm, 350mm, etc.)

5.Base Style(U Shape, Frankfurt, Fickert, Lavina, Husqvarna, HTC, Klindex, Werkmaster, Diamatic, Etc.)

6.Machines (Hand Held Grinders, Automatic Bush Hammering Machine, Automatic Grinding Machine, Angle Grinder, And Floor Grinders)

BUSH HAMMER BLOCK

Marble

Granite

Concrete

Sandstone

FAQ:

1. What can Bush Hammers do?

Surface Prep for coatings.

Quickly expose large aggregate.

Remove hard coatings and overlays.

2.What is the bush hammer tool?

Bush Hammers have been around a long time and have proven the easiest way to texturize

stone, concrete & asphalt.

3.How to use and maintain bush hammer tool?

Do not apply too much pressure on the bush hammer. This will prevent the roller from stopping and thus decrease the life span of the tungsten steel.

After each use, please clean up rollers, dry and apply oil to the spindles. It will be ideal to submerge the rollers in oil to prevent spindle rust.

Roller tips can be re-dressed with diamond blades when they become inefficient.

Logistics:

Sample order ship by DHL, UPS, FedEx, TNT, EMS etc

For mass order delivery, can be optional with terms of Exwork, FOB, CNF, CIF by air or by sea based on the buyer's forwarder or ours
