

Introduction:

Aluminum matrix diamond cup grinding wheel is mainly used for diamond grinding bowl edge, surface, chamfered surface of the stone, leveling, coarse grinding, fine grinding and so on. Easy to use, high efficiency grinding, It is fast pondering, trimming and finishing concrete shape, stone, the most effective tool for stone, usually with the use of electric or pneumatic tools at hand.

Features:

1. Shape precision, good grinding effect, long pot life;
2. The high grinding efficiency, for different grinding objects, using different binding agent;
3. We can manufacture according to customer's needs shape specifications;

specification:

Here is our regular size of aluminum matrix diamond cup grinding wheel:

Diameter (mm / Inch)		Grit	Inner hole
100	4	30 #, 40 #, 50 #, 60 #, 80 #, 100 #, 200 #	M14
			M16
125	5		5/8 "-11
			22.23

Other special specifications can be customized.
