

Introduction:

Buff fickerts are used in the final step in fine and accuracy grinding for slabs of granite, marble, quartz and ceramic. These fickerts are used on automatic continuous polishing machines with high efficiency and long lifespan.

Features:

1. Buff fickert offers smooth polishing and glossy surface.
2. It can bring glossy stone surface, without scratch or break slates while grinding.

Specifications:

The followings are the normal specifications of our buff polishing fickert:

Product Name	Model	Specifications	Grit	Color	Applications
Buff Fickert	T140	140*56*15(20)	Lux 0# BUFF	Green White Black Brown	Granite Marble Quartz Ceramic
	T170	170*56*15(20)			

The above specifications are for reference, other specifications can be ordered by customers.
Quality: Good quality, Premium.
