

Introduction:

Diamond dry and wet polishing pads are used to polish the corner, inner arc, outer arc of granite, marble and irregular shaped stone, can finish polishing work efficiently without water, and with the strength of good sharpness, long life and high abrasion resistance. Compared with wet polishing pads, they can prevent stone from water spot, yellow stain and accumulation of salt.

Features:

1. High polishing efficiency, without board burning.
2. Long lifespan and stable performance.
3. Smooth polishing and glossy polishing surface.
4. Dry use and wet use are both available.
