

Introduction:

Diamond dry buff polishing pads are used to polish the corner,inner arc,outer arc of granite,marble and irregular shaped stone,can finish polishing work efficiently without water,and with the strength of good sharpness,long life and high abrasion resistance.Compared with wet polishing pads,they can prevent stone from water spot,yellow stain and accumulation of salt. Because of the extremely fine grit,this polishing pad can be used for polishing with quick speed and get a good polishing result without water.

Features:

1. High polishing efficiency,without board burning.
2. Long lifespan and stable performance.
3. Smooth polishing and glossy polishing surface.
4. High heat resistance.

Specifications:
