

Introduction:

Diamond Gang Saw Blade is one of the most advanced, most commonly and high-tech cutting tools for stone block, especially in marble and other soft stone cutting. Comparing with the single block blade, the group of the gang saw blades (can be 60-100 pcs) highly increase the cutting speed and precise with lower power consumption. It brings superior cutting performance.

Features:

1. The segments have good sharpness and high efficiency at the process of cutting, meanwhile, it has a long lifespan.
2. Good cutting result: smooth cutting, flat surface and even size.
3. Stable cutting, narrow cutting gap, stone waste reduction.
4. It works in low noise, small cutting slot which ensures maximum use of stone and uniform thickness.
