Volcanic rocks

Applications Machine:

L140mm Fickert Type 99S Bush Hammer Head Roller is used on automatic grinding machines, for grinding and calibrating the stone slabs like granite, marble, etc.

Diamond bush hammer plates and roller is a construction tool used for texturizing and renew concrete. Floor bush hammer plates can adapt to several kinds of grinder, from simple hand-held hammers to large electric machines, but the basic function of the regular bush hammer is always the same - 30pcs/45pcs/60pcs of conical or pyramidal carbide tips welded at the top of a large metal plate. The repeated hit of these carbide tips into stone or concrete surface creates a rough, pockmarked texture that looks like naturally weathered rock.

Grindnig Effect:

L140mm Fickert Type 99S Bush Hammer Head Roller
