

Introduction:

For drilling a wide range of hard to soft materials with or without steel reinforcing , reinforced concrete , cured concrete with hard to soft aggregates , prestressed concrete , concrete with stressed rebar ,asphalt .It is more effective on high power core drill .

Features:

- 1.Universal wet drilling core bits .
- 2.Designed for high performance drilling in a wide range of hard to soft materials .Even fast drilling and maximum life .

Specifications:

The followings are the brazed high performance core bit :
