

Introduction:

This Bush Hammer Roller Plate to Make Litchi Surface is suitable for granite, marble and other stone surface litchi face changed in the past of doing litchi surface grinding method for changing the production process litchi fundamentally, litchi surface grinding disc processing out of the panel more uniform.

Features:

1. Different gear to choose from, density adjustable
2. Use simple, high efficiency, is 5-8 times artificial
3. apply welded precision instruments, high-quality alloy casting, efficient and durable

specification:

The following are our Bush Hammer Roller Plate to Make Litchi Surface normal specifications:

Product Name	diameter	Roller number	Segment number
Bush Hammer Roller Plate to Make Litchi Surface	125mm	3	30
	150mm	4	30
			20
	200mm	4	40
			48
			14
	250mm	5	40
	300mm	6	48
			40
			14
	350mm	9	40
	400mm	9	40
Horseshoe litchi round (Frankfurt type)	450mm	12	40
	Litchi surface hypotenuse disc	3	10
	Horseshoe	1	20
			40
