

## Product Description:

### Introduction:

**Fully Automatic Mechanical Cold Press Machine For Diamond Segments** is divided into two different models according to the different pressure (BWM-35T and BWM-60T). On the basis of the commonly used mechanical cold press machines, We made too much improvement and adjustment. It can be used for pressing of large, medium and small saw blade segment, fan-shape segment, diameter of 14, 12, 10, 8, 6 mm drill bit segment and some special shape segment, etc.

### Features:

1. Small and delicate LED work light;
2. The screen is working together with the brake, greatly increasing safety factor for operator;
3. It also can be used for pressing the segment with a base layer of metal powder (welding layer).
4. Feeding the metal powder in the way of mechanical, feeding more twice extraly in a short distance and more accurate;
5. This equipment has a pressure relief device, turning a hand wheel can relieve pressure easily when the machine is stuck;
6. Strengthen wear parts optimization, maintenance rate is much lower than the past similar equipments, increasing service life of the machine;
- 7.The structure of four guide pillars, feeding the metal powder into the mould with high precision, installing cold press mould is conveniently and simply;

### Advantage:

Our products export to Brazil, India, Australia, USA, Ukraine, Italy, Poland, Russia , more than 20 different countries . In these overseas markets,our products enjoy a good reputation, we get good feedbacks about their corresponding test resu lt, and also a long lifespan. so, we are confident in our products quality.

**All of our products have been strictly tested before access to market.**

**Other specifications can be customized according to requirements.**

### Details:

Specification of fully automatic mechanical cold press machine:

Model: BWM-60T

Motor Power	4KW
The rated voltage	380V
The rated current	10A
Distance of upward	80MM
Work efficiency	29Times / Min
Weight accuracy of metal piece	±2%
Quantity of metal piece per time	1- 4PC
The largest volume of hopper box	30KGS
Maximum height of metal powder	0.5-30MM
Minimum size of mould cavity	5*5MM

Maximum size of mould cavity	50*70MM
Size of the mould	L(220-250)*W(130-150)*H(20-40)
Device dimension	L850 * W1150 * H1800 (Face angle)MM
Net Weight	1000KGS

**Other specifications can be customized according to buyer's requirements.**

This cold press machine can make the following diamond segments,also can make other kinds.

More Pics in details, Pls contact with us :)

### Packing and shipping:

We will deliver within seven days of your payment, products are packed in wooden. We can also pack the products according to your requirements. Special specifications need to be negotiated for delivery times.
