

Product description:

Brief introduction:

D105*12T*16H segmented diamond chamfering wheels for concrete usually installed in the large grinding machine, mainly for grinding edge of concrete and other materials. The unique design with good sharpness allows easy dust removal, low noise and safety.

Features:

- 1, Segmented diamond chamfering wheel provides high accuracy and smooth surface in concrete processing.
- 2, With feature of high efficiency accuracy in shape and size.
- 3, Other specification are available upon client's request.

Advantage:

Our products export to Brazil, India, Australia, USA, Ukraine, Italy, Poland, Russia , more than 20 different countries . In these overseas markets, our products enjoy a good reputation, we get good feedbacks after their corresponding test result, so, we are confident in our products quality.

All of our products have been strictly tested before access to market.

Other specifications can be customized according to requirements.

Details:

Specification of D105*12T*16H segmented diamond chamfering wheels:

Diameter: 105mm

Hight: 20mm

Segment number: 12

Type: Wet use

Meterial: Metal and diamond

Applicable materials: Concrete

Adaptation machine: Large grinding machine

Place of origin: China

The following shows only part of the product, other products can be customized according to your needs

If you do not find the product you want, please contact us for more products details.
