

Product description:

Brief introduction:

D12*100L*10B clamping rod diamond drill bits are used for drilling granite marble and other stone, connected to the drilling machine through the connector, in order to cool and discharge debris, drill bit needs water, good water permeability, can make the drill life and sharpness greatly improved.

Features:

1. Applicable to a variety of handheld drill machine or table drilling machine.
2. Using high-quality diamonds and silver welding, can withstand high speed drilling.
3. The diamond protrusion uniform, sharp, high drilling efficiency.
4. Each center has a water hole drill is conducive to chip and cooling, and thus has a long service life.

Advantage:

Our products export to Brazil, India, Australia, USA, Ukraine, Italy, Poland, Russia, more than 20 different countries. In these overseas markets, our products enjoy a good reputation, we get good feedbacks after their corresponding test result, so, we are confident in our products quality.

All of our products have been strictly tested before access to market.

Other specifications can be customized according to requirements.

Details:

Specification of D12*100L*10B clamping rod diamond drill bits:

Diameter: 12mm

Connection: clamping rod 10B

Length: 100 mm

Production methods: Silver/laser welding

Adaptation machine: Portable/hand-held drilling machine

Applicable materials: Granite marble and other stone

The following shows only part of the product, other products can be customized according to your needs

If you do not find the product you want, please contact us for more products details.
