

Product description:

Brief introduction:

D120*V20*20H segmented diamond profile grinding wheels for ceramic usually installed in the continuous grinding machine, mainly for grinding edge of ceramic and other materials.

Features:

- 1, The unique design with good sharpness allows easy dust removal, low noise and safety.
- 2, This product provides high accuracy and smooth surface in ceramic processing.
- 3, With feature of high efficiency accuracy in shape and size.
- 4, Other specification are available upon client's request.

Details:

Specification of D120*V20*20H diamond profile grinding wheels:

Diameter: 120mm

Shape: V20

Height: 20mm

Grit: 30/40#,60/80#,200#

Type: Wet use

Material: Metal and diamond

Applicable materials: ceramic

Adaptation machine: Continuous grinding machine

Place of origin:China

The following shows only part of the product,other products can be customized according to your needs
