

Product description:

Brief introduction:

D130*50H*45° segmented diamond chamfering for ceramic usually installed in the continuous grinding machine, mainly for grinding edge of granite marble ceramic and other materials.

Features:

- 1, The unique design with good sharpness allows easy dust removal, low noise and safety.
- 2, This product provides high accuracy and smooth surface in ceramic processing.
- 3, With feature of high efficiency accuracy in shape and size.
- 4, Other specification are available upon client's request.

Advantage:

Our products export to Brazil, India, Australia, USA, Ukraine, Italy, Poland, Russia , more than 20 different countries . In these overseas markets,our products enjoy a good reputation, we get good feedbacks after their corresponding test result, so, we are confident in our products quality.

All of our products have been strictly tested before access to market.

Other specifications can be customized according to requirements.

Details:

Specification of D130*50H*45° diamond profile grinding wheels:

Diameter: 130mm

Height: 50mm

Shape: 45°

Type: Wet use

Material: Metal and diamond

Applicable materials: ceramic and stone

Adaptation machine: Continuous grinding machine

Place of origin:China

The following shows only part of the product,other products can be customized according to your needs
