**specification:**

The following are the normal specifications **Diamond concave saw blade:**

சென்னை

15 mm  
4 inches  
125 mm  
52 mm  
61 mm  
88 mm  
121 mm  
123 mm

15 mm (6 inches) 18 mm (7 inches)

The above specifications are for reference only, other specifications can be provided according to customer requirements.

**Our factory** use original  
high grade diamond

pk

**Other factory** mix second  
diamond selected from  
waste segment

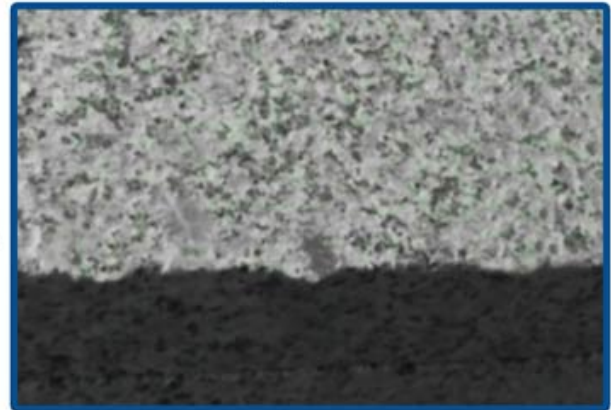

**Our blade** cutting effect

pk

**Other supplier** blade  
cutting effect

### **advantage:**

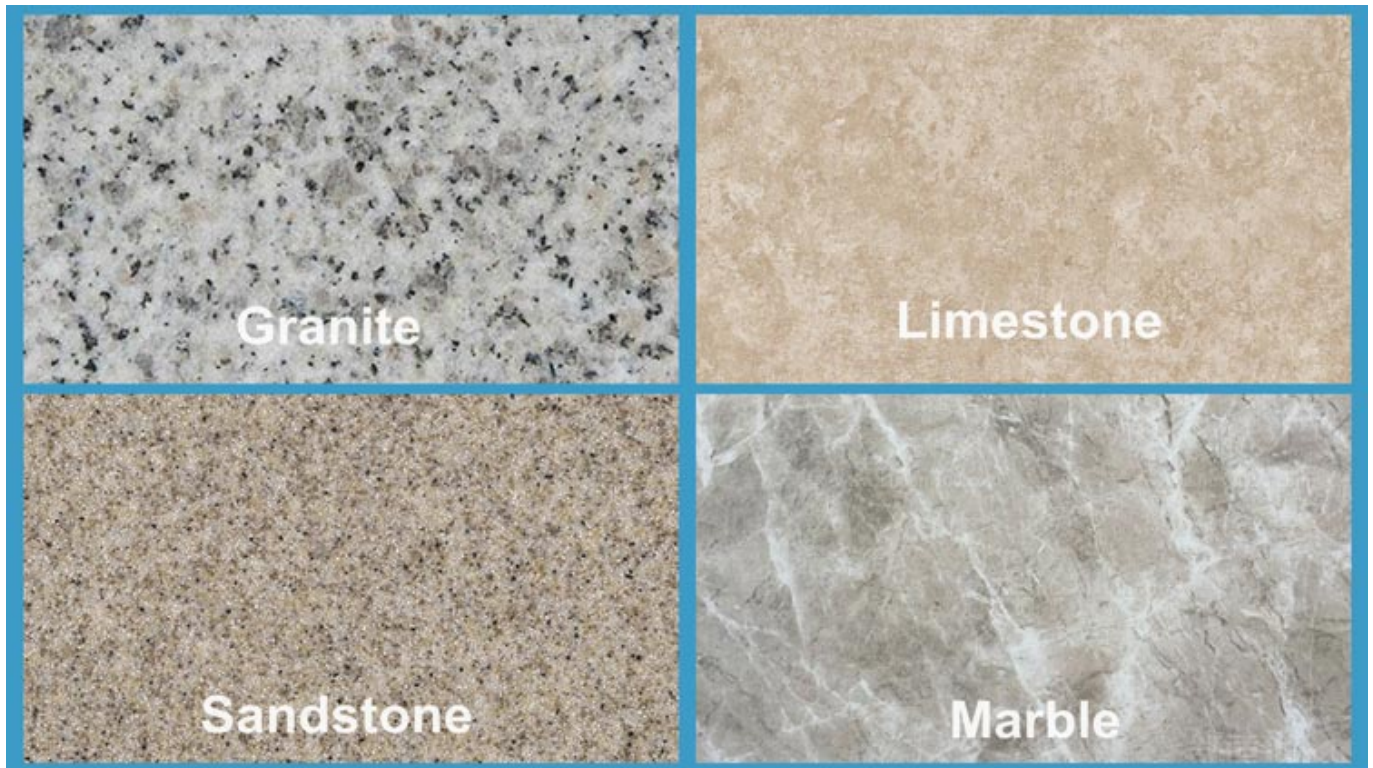

#### **Diamond concave saw blade**

1. Delivery on time
2. Our prices are competitive
3. Accept small orders
4. Production of various specifications
5. Long life and stable performance
6. Hot sintering, dry or wet use!

Factory = Quality Control = Competitive Price = Own Technology = OEM

### application:

**Diamond concave saw blade** Suitable for cutting hard, medium hard and soft stones, such as granite, marble, sandstone and limestone. Applicable to various manual cutting machines or angle grinders.

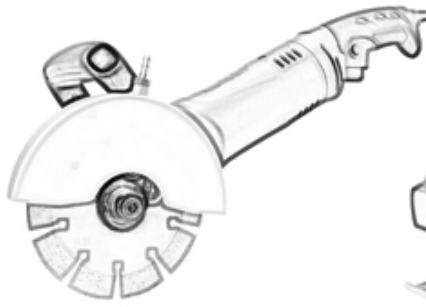

Matters needing attention when using:

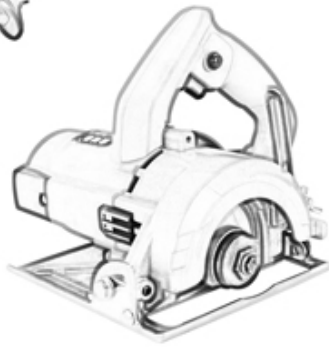

1. Before installing the saw blade, the contamination between the saw blade and the flange should be removed.  
When installing the saw blade, the marking direction should be consistent with the direction of rotation  
For the direction of the power tool, the flange should be fixed on the power tool with a wrench.
2. Do not use saw blades deformed by squeezing.
3. During operation, the operator must wear a safety helmet, safety shoes and goggles, protective gloves. In addition, if necessary, the operator must use earplugs, masks, etc.
4. Power tools should have a protective cover.

### Application machine:

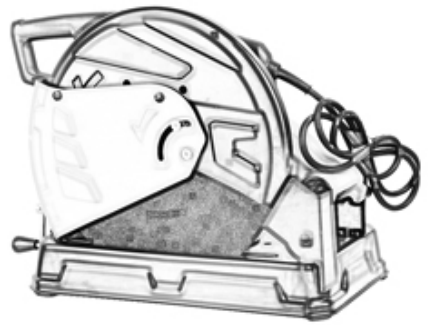

**Diamond concave saw blade** It is used to cut round or curved line board to protect the desktop. The cutting effect on the inside and outside is also very good.

#### about us:

### **Packaging and transportation:**

PS:

1. Toolbox packaging
2. Transport bulk cargo by air / sea and receive airport / port
3. Less than 45kg, general express (door to door)
4. When the amount of tools is large, pack them in wooden boxes

#### our service:

1. Low order quantity: can meet the test order you need.
2. Fast delivery: We get a big discount from the freight forwarder.
3. OEM is acceptable: we can produce according to your samples or drawings.
4. Excellent quality: We have a strict quality control system. Has a good reputation in the market.
5. High-quality service: We regard customers as God with high professionalism and enthusiasm.

#### FAQ:

##### **1. If we want to order your product, how do we know your quality?**

You can order a small amount for testing, and then you will know the quality. Today, many people in the world use Chinese products because of their high quality and high cost performance. We are a professional diamond tool manufacturer with more than 8 years of manufacturing experience.

##### **2. Can you provide samples for free?**

We do not provide free samples. Based on years of experience, we believe that customers will
