

Product Description

40x3.6x10mm **diamond marble cutting segment**,The blade has good sharpness and high efficiency at the process of cutting,meanwhile,it has a long lifespan.

The surface of the wet used segment is polished, cutting tool diamond segment is not easy to increase the difficulty of welding, and it is easy to install.

diamond cutting segment for factory,let the cutter head wear regularly to reduce wear.

Feature:

- 1.When the diamond marble cutting segment is welded on the saw blade matrix, the gap between the cutter heads will not be too large.
- 2.The gap can allow the buffer transition between the fast cutting diamond segment and the cutter head, which is conducive to extending the service life of the cutter head and reducing the purchase cost of the enterprise.
- 3.The product has been tested for many times, and the sharpness has been continuously improved to improve the cutting speed of processing for you.You can get the effect of fast cutting and reduce the error rate of cutting.

Product Specification:
