

Product Description

The size of 40x3.6x15mm **diamond segment for cutting andesite**, is specially designed for 400mm diamond saw blade and Anshan rock. The height of the cutter head is 12mm, 15mm and 20mm.

It is aimed at the Indonesian market. Although the quality is the same as that of Wan long cutter head, the performance of the cutter head is the same as that of Wan long segment.

As a professional stone cutting segment wholesales, we produce various styles of saw blade heads, including K shape, M shape, layer type, K type, V type, grooved type, M type, tape type, etc.

Feature:

1. Long lifespan and stable performance.
2. Good cutting result and high efficiency.
3. [Diamond Segment Cutting Supplier China](#), low noise, easy and fast cutting, no edge broken.
5. When using this **diamond segment for cutting andesite**, the maximum recommended speed is 2150 RPM.
4. Competitive price, good cutting speed, diamond blade are made of good metal bond with high quality diamond grit.

Product Specification:

The Following Are Normal Specifications **Diamond Segment For Cutting Andesite**:

Blade Diameter	Segment Size (LxWxH)	Welding Process	Segment Process
400mm	40X3.6x15mm	High Frequency Welding	Cold Pressing, Hot Pressing Sintering

The above specifications are only for reference, other specifications may be available as per customer's demand.

Other Specifications Of Diamond Segments For Cutting Andesite, Indonesia

Blade Diameter	Segment Size (LxWxH)	Application
400mm	40x3.5x15mm	Andesite
400mm	40x3.6x15mm	Andesite

500mm	40x4.2x15mm	Andesite
500mm	40x4.5x15mm	Andesite
600mm	40x5.0x15mm	Andesite
800mm	40x6.0x15mm	Andesite
900mm	40x7.0x15mm	Andesite
1000mm	40x7.0x15mm	Andesite
1600mm	24x9.0x15mm	Andesite

China 400mm Diamond Saw Blade Segment For Cutting Andesite In Indonesian Market

Application:

High frequency welding segment For bridge cutting machine, desktop cutting machine, etc
Our diamond segment is used for cutting all kinds of sandstone, granite, marble, slate, bluestone, limestone, etc.

Characteristics of products: **Wet Use Diamond Segment** fast cutting speed, good life span, stable performance.

Diamond segment types include the sandwich segment, multi-layer segment and orderly arrayed segment and carbide tips, every type is designed for different stone or concrete, tile, ceramic, asphalt, floor to reduce segment cost and increase cutting efficiency.

FAQ

1. Is there cheap shipping cost to import to our country?

For small order, Express will be the best, And for bulk order, sea ship way is best but take longer time. For urgent orders, we suggest via air to airport or by Express send to your door.

2. How to transport the product?

We will take good protection measures for the products, protect the integrity and safety of the products, and provide other methods of transportation such as sea, land, and air to serve you, so that the products can reach the customer's door perfectly and safely.

3. What are our advantages?

Our teams is professional and the members have good study of the diamond tools. We offer quick response. Each messege or email will be replied within 24 hours. In the past few decades, Boreway diamond tools has made many orders of the OEM/ODM successfully . Some of the OEM/ODM services are free of charge!
