

Descriptions:

Diamond Wire Saw For Reinforced Concrete Suppliers and beads are used for wet cutting marble, granite, sandstone, limestone and many other hard stone.

Diamond Wire Saw For Reinforced Concrete Suppliers is more and more popular now in the stone and construction industry. It is a kind of diamond cutting system which specially designed to cut concrete, granite, sandstone, marble, and other stones. It is with much higher efficiency and performance than the traditional ways of diamond saw blade and gang saw blade.

Diamond Wire Saw For Reinforced Concrete Suppliers mainly use for cutting stone block and quarry, these tools have a fast cutting speed and suitable for cutting large materials. These diamond wire saw beads standard diameter is 7.3-11.5 mm, process is sintered, electroplated and vacuum brazed, 1 meter has 28-41 beads, and the rope is made of rubber, plastic, spring and steel wires. Compared with common circular saw blades, diamond wire saw has the advantage of cutting very large and irregular materials and even cutting under water, which greatly saves costs and reduces risks.

Specifications:

Specification of [China Factory Concrete Cutting Wire Saw](#)

Diameter / mm	Applications	Connecting material	Beads/meter
11.5	Concrete Engineering	Rubber	40
11.5	Granite mine	Rubber	40
11	Concrete Engineering	Rubber/plastic	40
11	White marble mine	Spring	28-30
11	Green marble mine	Spring	28-30
11	Granite mine	Rubber/plastic	40
11	Granite block cut	Plastic	37
10.5	Concrete Engineering	Rubber	40
10.5	Granite block cut	Plastic	37
10.5	Marble block cut	Plastic	30
9	Marble	Plastic	33
9	Granite	Plastic	37
8.8	Granite	Plastic	37
8.8	Marble	Plastic	33
8.5	Granite	Plastic	37
8.5	Marble	Plastic	33
Other specification can be customized			

The above specification & photos is only for reference, other specification or design can be ordered by customers.

Advantages:

1. Huge and irregular construction cutting.
2. Apply to cutting of Any direction and part.
3. High performance, safety and no pollution.
4. Good quality crude rubber with advanced technical procedures and equipment for injection, which make the rubber get inside of steel cable with better protection of steel cable and no break during work.

All of our products have been strictly tested before access to market.

Other specifications can be customized according to requirements.

Feature:

- 1.No cutting depth limit
2. Low cutting cost and little noisy
3. High productivity & high performance
- 4.Only 1.1 CM cutting gap results diamond wire saw cutting reduces resource wasting.

Now diamond beads wire saws are already widely used in stone quarries, concrete cutting and for cutting large irregular shape buildings. Currently, diamond wire saw occupies approximately 80-90% of global quarries, in Italy, Turkey, Spain, Brazil, South Africa, India, US etc. Diamond wire saw cutting already replaced traditional flame cutting and horizontal demolition operation.

The invention of diamond wire saw brought a tech revolution in quarries, because it reduced the disadvantages of traditional cutting techniques. Compare to traditional cutting techniques, diamond wire saw cutting works better in large objects cutting, with high efficiency, production rate and resource saving.

Application:

BOREWAY [Concrete Cutting Diamond Wire Saw Wholesales](#) can be used in construction cutting, bridge and under-water construction cutting, including green concrete, cured concrete, reinforced concrete, Granite quarrying, Marble quarring, Granite and marble block profiling, Stone slabs cutting, Concrete cutting. etc.

Cutting Methods: Vertical, Horizontal, turn 90°direction, blind cutting.

When place order of wire saw for stone cutting, please kindly inform:

1. Special requirement if any
2. Expected cutting performance in both speed and life
3. The power and technical parameters of wire saw machine
4. The usual dimension of cutting bench, especially the working height
5. The hardness and chemical information of granite material, if possible

Bridge reconstruction

Road construction

Granite blocks

Marble blocks

About us:

Our service:

1. Low order quantity: It can meet the test order you need.
2. Fast delivery: We get great discounts from freight forwarders.
3. OEM acceptable: We can produce according to your samples or drawings.
4. Good quality: We have a strict quality control system. Has a good reputation in the market.
5. Good service: We regard our customers as God with a high degree of professionalism and enthusiasm.

- For sample or small orders, products could be sent by express, TNT, DHL, UPS, FedEx, EMS etc.
- For large orders, shipping by sea or air is recommended. By our long-term cooperate agent or your appointed forward.
- By sea, port of loading: Shanghai, Ningbo, Xiamen, Qingdao etc.

Logistics:

Sample order ship by DHL, UPS, FedEx, TNT, EMS etc

For mass order delivery, can be optional with terms of Exwork, FOB, CNF, CIF by air or by sea based on the buyer's forwarder or ours

FAQ:

1.How could we know the quality, if we want to order your products?

Please just test them with a very small order, then you will know the quality. At present,so many people in the world to use Chinese products, because of the high quality and most competitive prices. We are professional manufacturer in supplying diamond tools for more than 8 years. Anyway, confirming our products quality, a small trial order for testing will be necessary.

2.Can you offer free samples?

We don't offer free samples, according to our many years experience, we think people get the samples by paying, they will cherish and appreciate more what they get. But we are willing to give our potential customers a special discount which they are used to do a testing. It is very important to give us feedback, we appreciate it.

3.Does your company accept custom-made?

Surely, we accept it. Including differentcolor, grit etc. We also can mark your ownlogo and brand on the pad. Any new productsyou want us to produce for you, just send us your drawing or sample, we will produce the same one. We will not sell this kind of products to other customers only if we get your permission.

Please note:

1. Please provide items before purchase.
2. Please provide the model number before purchase.
3. Other specifications can be customized according to requirements.
