

Fast sell-off machine

Plot:

This device is suitable for grinding and polishing heads and other diamond products nodal needed graphite sintered compacts. High precision, stable and reliable performance.

Scope: 90mm * 120mm 120mm * 125mm 160mm * 160mm

Features:

1. The reasonable design, novel structure, reliable operation;
2. easy operation, high efficiency;
3. The power-saving, time-saving, low prices.

Specifications:

The following is a common selling pressure block machine specifications for reference.

Voltage	380V , 50/60Hz , 3phases
Power	0.55KW
Output speed	2800-3000r/min
Table size	180 * 180mm
Dimensions	300 * 300 * 500mm
Weight	35kg

For some special requirements, we can also according to customer specific requirements to provide custom processing.

Note: The price tags for reference, specific detailed consultation please.
