

Introduction

High precision brazing frame for diamond circular saw & core drill is a newly developed machinery for the industry. It's easy to operate, precise, stable & high cost to performance ratio, comparing to imported machine. The machine improves the brazing precision & torque strength of diamond circular discs and reduces sharpening & labor cost significantly.

Features:

We adopt easy design of halving to fix the position, which enable the worker to use the rack with basic training.

Specification:

Brazing Length: 4800-5500mm

Brazing thickness: 1.2~3.0

Brazing Height: 90~200mm

Positioning accuracy: Surface of segment tolerance: ± 0.05 , Blade symmetry tolerance: ± 0.05
