

Description:

Boreway entered concrete cutting with a diamond wire saw for cutting high-strength concrete bridges, cutting speed, highly efficient and stable.

Features:

1. The use of high-quality spring, to ensure the strength of the wire saw.
2. The special production method, beaded not broken.
3. Advanced dispensing technology, highly efficient and stable.

Specifications:

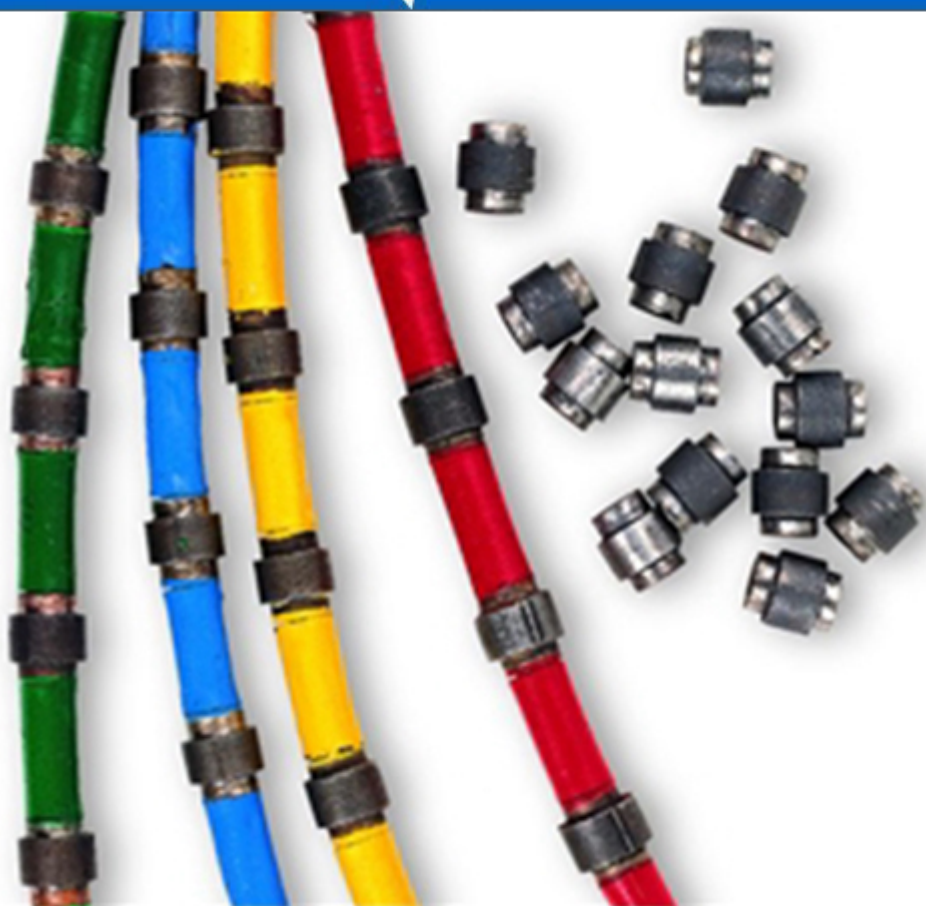

Product Name	Product Code	Bead diameter / mm	Beaded long / mm	Beads / m
Mixed Steel Wire Saws	BW-DWC-105	10.5	12	40
	BW-DWC110	11	12	40

Application:

Diamond wire saw for cutting reinforced concrete , diamond wire saw for cutting bridges.
