

Introduction:

Electroplated Diamond hand polishing sheets are designed for hand polishing of soft granite, concrete and marble. They are especially useful when used to polish hard to reach areas. The sheets can be attached to a velcro backer so that they can reach ogee and other curved areas. Compared to all resin bonded diamond hand polishing sheets, the electroplated sheets are more aggressive and effective when used to remove stocks from materials. The electroplated diamond hand polishing sheets can also be applied to more materials including glass and engineered stones.

Feature:

- 1.It can't stain on the stone surface;
- 2.More efficiency on the bending surface;
- 3.It is easy to band and be helpful to grinding and polishing the bending surface.

Specification:

The are specification of Electroplated diamond hand polishing sheet:

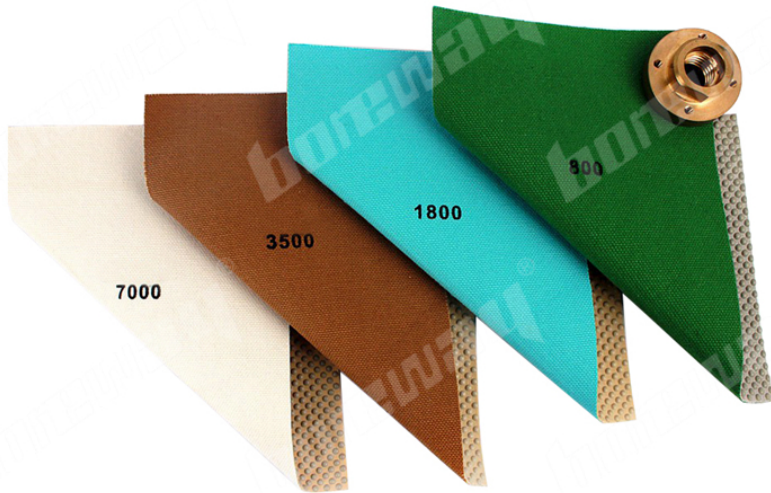

Product Name	Type	Size	Grit No.
Resin hand pad	Sheet / pad	120*180mm	60# 120# 200# 400# 800# 1500#
