

Descriptions:

Flat segment for gang saw, it is one of the most commonly used stone cutting tools. It is arranged with the cutter head, which greatly reduces your cutting cost and time cost. diamond cutting tip for gang saw, it can cut large plates with the same thickness evenly.

The exposure speed of diamond particles on the cutter head is fast, which makes your processing speed faster, improves the efficiency of the machine, and reduces the time and cost.

Feature:

1. Uniform size is very important. In actual cutting, let the row saw cut to reduce vibration, reduce the wear degree of china sharp gang saw segment and improve the running speed.

2. **Gang saw diamond segment** is used for the length and width of diamond cutter head to make the cutter head wear regularly and reduce wear

3. The good price gang saw segment works in low noise and small cutting slot which ensures maximum use of stone and uniform thickness. It is used for cutting marble block.

Specifications:

The Following Are Normal Specification **Flat Segment For Gang Saw**:

Segment Dimension	Usage	Machine
20×4.8/4.4×8(10)mm	Wet Working	Gang Saw Machine

The above specifications is only for reference, other specifications may be available as per customer's demand.

Product Details:

Diamond Gang Saw Flat Segments for Cutting Marble Block

Applications:

The gang saw segment is used on the gang saw blade. gang saw segment for marble block.

We also provide cutter heads for cutting granite, marble, ash, ceramic tile, concrete and refractory materials, including M-shape, K-shape, tape shape, flat shape, T-shape, U-shape, etc.

Packing & Delivery:

Our service:

1. Low order quantity: It can meet the test order you need.
2. Fast delivery: We get great discounts from freight forwarders.
3. OEM Acceptable: We can produce according to your samples or drawings.
4. Good quality: We have a strict quality control system. Has a good reputation in the market.
5. Good service: We regard our customers as God with a high degree of professionalism and enthusiasm.

FAQ:

1.If we want to buy diamond segment, how could we know the quality?

You can buy diamond segment with a small quantity first, test the quality and our service, it

will be much better for our long term cooperation. For small quantity, you don't need to take risk in case the quality doesn't fit your market.

2.What could we do if we find your diamond segment are not in good performance?

Please tell us the detailed information of the cutting, for example:

- 1). The RPM of the machine, the cutting object.
- 2). The detail picture of diamond segment after use, e.g. the cutting side of diamond segment.
- 3). Do you feed enough cooling water.

3. What is the delivery way?

Express Courier Service, Sea Cargo and so on. We give the advice according to actual situation for customers make decision.
