

Product Description:

Handheld Stone Edge profile Grinding Machine High Quality Stone edge profiling polishing router machine is used to perform professional shaping of stone and concrete counter tops. The variable speed design ensures the machine to work perfectly with different Diamond Grinding Wheel in different material.

The machine has equipped with Water Hose to assist the machine profiling more precise and prevent the working surface from scratching. Another safety feature included is the GFCI (Ground Fault Circuit Interrupter). Which will go off when water enters inside the machine cover to prevent the operator from receiving electric shocks.

Specification:

Handheld Stone Edge profile Grinding Machine Stone edge profiling polishing router machine

1. Equip with GFCI
2. Speed Variable profiling router
3. Profiling the stone or counter tops edge to different sharp

Model No.	BWM-MX1290
Rated Voltage	230V/110V
Rated Frequency	50/60HZ
Output Shaft Thread	M10 UNC
Rated Input Power	2KW
No-load Speed	0-8500RPM
Max. Stone Thickness	40mm
Diamond Grinding Wheel	90mm
Packing Size	53*32*30cm
G.W/N.W	19/18KG

Other specifications can be customized according to requirements.
