

Introduction:

CNC Vacuum Brazed Diamond engraving bits 12-4/100mm, taper ball-end cutter
Taper or Cone type with ball end(12-4mm) workable length 100mm Ball end,
Shank 12MM, Total length 150mm

Vacuum Brazed Diamond Carving bits with a large variety of specifications are extensively used for sculpturing, dressing, precision grinding and internal grinding carbide, ceramic, glass, precious stone, alloy and many other abrasive material. all sizes, shapes, assortments are upon your specific request. kit assortments of mounted points & burrs are flexible.

Vacuum Brazed Engraving Bits 5-8times working life than electroplated diamond bits. High efficiency. Used on CNC engraving machine, working at high rotating speed. Different models for end milling, carving, line engraving, polishing, slotting, hollow-cutting, 3D embossment, cutting, flat processing ect.

Application: For granite & marble, bluestone, sandstone masonry, ceramic tile, brick....

Features:

1. Special shapes and sizes available upon request.;
2. Diamond bits designed for edge details grinding and engraving application;
3. For use in soft stones and granites, water use suggested in granite and hard stones;
4. Vacuum Brazed Diamond Bits for bowl-hole mounting systems available in our standard product list.

Advantage:

1. Segment is very sharpening;
2. Efficiency and operator safety;
3. Competitive price and superior quality;
4. Long engraving life and stable performance;
5. High quality: It must pass our QC testing for 3times.

Tips:

1. Wet use, also can be dry used; but suggest wet use better;
2. Water or other cooling agent is recommended for longer life of the bit;
3. Life longer than conventional diamond coated rotary points, saving time and money;
4. A new generation of tools, innovative Diamond BRAZED Profile Wheel Lasts up to double.

Specification: CNC Vacuum Brazed Diamond Engraving Bits

Vacuum Brazed Diamond engraving bits 12-4/100mm, taper ball-end cutter

SHK (shank)	6mm,8mm,10mm,12mm,16mm
CEL (cutting edge length)	7mm,9mm,12mm,20mm,30mm
CED (cutting edge diameter)	6mm,8mm,10mm,12mm,16mm
OVL (overall length)	60mm,90mm,100mm,150mm,200mm
Grit	30/120#
Color	silver /gold
Application	Stone, masonry, ceramic tile, brick....
Used for	Engraving line, carving, 3D embossment, Slotting hollow-cutting
Machine	CNC engraving machine

Finished Products

Suitable for: Marble ,bluestone□granite□sandstone

Packing & Delivery:

1. Tools packing in carton cases;
2. When tools are in large quantities, they are packing in wooden cases.

-DELIVERY-

Less than 45kg,generally delivery by express(Door to Door).

By Air / Sea for batch goods, Airport / Port receiving.
