

High-quality sintered diamond tuck point blade introduction:

The company produces diamond saw blade slot, suitable for walls, stone, concrete pavement and a variety of ground, bricks and other hard and brittle non-metallic materials, grooving and grinding, engraved slip lines, decorative lines. For a variety of marble machine, road cutting machine, bench cutting machines, grinder and so on.

Quality diamond sintering tuck point blade features:

1. Our slotting saw the use of international advanced welding technology, thickened head design, to ensure the efficient use of the effect of the cutting blade.
2. The heads of powder alloy hot pressing, long service life, the better.
3. sharp, lasting wear, high efficiency, safety and reliability.
4. reasonable price and high quality service

High-quality diamond sintered tuck point blade specifications:

The outer diameter	Blade width (mm)	Segment height (mm)	Connecting hole
105 mm (4 inches)	6.4	7/8/10 / 12.7	15.88 mm (5/8 inch) 22.23 mm (7/8 inch)
115 mm (4.5 inches)	6.4	7/8/10 / 12.7	
125 mm (5 inches)	6.4	7/8/10 / 12.7	
150 mm (6 inch)	6.4	7/8/10 / 12.7	
180 mm (7 inches)	6.4	7/8/10 / 12.7	
200 mm (8 inches)	6.4	7/8/10 / 12.7	
230 millimeters (9 inches)	6.4	7/8/10 / 12.7
