

Feature:

1. **M shape diamond saw blade segment** use high grade diamond use good quality bonding agent.
2. Strict quality inspection on each production process.
3. [Stone Block Cutting Diamond Segment Manufacturer](#) stable cutting , narrow cutting gap , stone waste reduction.
4. Cooperation with university's experts on technology & formula reserch.
5. Diamond saw blade segment for granite cutting is work in low noise,small cutting slot which ensures maximum use of stone and uniform thickness.

Product Description

1. [Stone Cutting Segment Wholesales](#) customize different formula and guarantee performance cost according to the mixing percentage of hard, medium, soft, abrasive stone, in order to maximize the performance.
2. Fine selected diamond with great strength and toughness ensures the sharpening feature and lifetime of the diamond wire. cheap price diamond blade segment.
3. Sophisticated sintering technology with well controlled temprature and pressure guarantees the diamond beads with great anti-abrasiveness feature.
4. Self-developed automatic production equipment and strict inline and final inspection controls the quality and stability.

Product Specification:

The following are normal specifications **M shape diamond saw blade segment**:

Blade Diameter	Segment Size		
	L	W	H
1350MM	24MM	8.0/7.0MM	20MM

The above specifications is only for reference, other specifications may be available as per customer's demand.

Other specifications of cutter segment:

Diameter		Thickness	Teeth	Segment Size			Hole	Max. RPM	Cutting Stone
Inch	mm	mm	pcs/set	L	W	H	mm	RPM	#
10"	250	1.8(2.2)	17	40	3.2	8/10/12	50/60	3450	Granite

M Shape Diamond Saw Blade Segment For Granite

DIAMOND BLADE SEGMENT

Fast Cutting

Long Life

Customizable Size

Segment Size:
24 x 8.0/7.0 x 20MM

Long Life & Durable

High quality diamond
& metal powder material

M Shape

High effective, environmental friendly, easy operation, long lifespan and no edge broken.

Stone Saw Blade Segment Shape

For Granite

For Marble

Gang Saw Segment Shape

Application:

M shape diamond saw blade segment for bridge cutting machine and single arm machine.

Stone diamond cutting segment for cutting of granite, sandstone, various hard stone.

M shape diamond saw blade segment using in block cutting for 900-3500mm circular saw blades for block cutting.

Granite

Sandstone

Quartz

For Block Cutting of Granite, Sandstone, Slate, Kinds of Hard Stone with quartz

One is single size multi cutter, which all blade sizes in same thickness and diameter while the other is multi size multi cutter, two sizes or more different size diameter blades used together in one stone machine.

FAQ

1.Can you accept OEM orders?

Yes, with professional design team, OEM orders are highly welcome.

2.Are you factory or trade company?

We are factory. And we have ourselves trading company.

3. Does your company accept customization?

Of course, we accept customization. Including different colors, cutting objects, etc. We can also tag your own label and company brand. If you want us to make any new products for you, just send your products to us. Whether it's drawings or samples, we have the ability to produce the same products. We will not sell these products to others, only customers can get permission.
