

Introduction:

Metal Bond & Resin Filled Zero Tolerance Grinding Wheel 1" (25mm) to 4"(100mm) for grinding and polishing sink holes on the slab,

kitchens, countertops, etc., which is the most effective way to grind and polish the tight radius.

Metal Bond & Resin Filled Zero Tolerance Grinding Wheel are are designed for stock removal on granite marble by grinding a way excess

stone. Resin-filled wheel: Excellent for stock removal, resin-filled design greatly reduces bounce and minimizes chipping.

These sink wheels are the fastest way to remove material after cutting out sink holes. They are used for very aggressive grinding

applications and removal of stock on variety materials including granite, concrete, limestone, marble, block, terazzo and more.

Features:

- 1.High efficiency,long lifespan and fast milling speed.
- 2.Perfect balance with zero vibration and stable performance.
- 3.Smoother milling without stone edge damage.
- 4.Greatly reduces bounce and minimizes chipping.
