

Product Description

Not chipping diamond marble segment fast cutting speed, good effect, stable cutting, smooth stone cutting surface and size.

Increasing the sharpness and stability or extending cutting life. High cutting performance diamond segment. The appearance of large diamond segment and packing can be designed to customers' requirement, **flat shape diamond segment for cutting**, is to help customers better selling products and make sure that customers can have smooth sales and use connection between our diamond segment and previous one.

Feature:

1. The sharpness of fast cutting saw blade segment is improved to reduce the waste rate of stones, cut stones evenly and reduce waste.
2. The surface of wet saw blade is polished, which is not easy to increase the difficulty of welding and easy to install.
3. The high quality **diamond segment for marble processing**, it is easy to cut the stone block, reducing the generation of debris, the working noise is smaller than the general cutter head, and the noise pollution is reduced.
