

Product Description:

Brief introduction:

The BW-MX1250 and BW-MX1280 multi-function portable profile router machine is designed for chamfering and profiling the edge of stone countertops, According to the different diamond router bits, you can process ceramic or stone stairs, to foot line, stairs brick, L-type, 45 degrees, arc edge, portable profile router machine with high production efficiency, good quality, durable lightweight, ultra-quiet, super horsepower, operating fast, easy processing, low cost, and many other advantages, the portable profile router machine won the praise of the market. Apply with max diameter 90mm profile router bits, mainly for wet use, convenient and safe.

Features:

- 1, With appropriate weight, convenient to operate.
- 2, Pulley type and Water slide type are both available.
- 3, The speed can be adjusted according to your demands.
- 4, Using electricity as power, the rotation torque is stable and strong.

Details:

Specification of multi-function portable profile router machines:

Parameters	Numerical	
Model	BW-MX1250	BW-MX1280
Max size of router bits	90 MM	90MM
Rated speed	8500 RPM	10000 RPM
Process thickness	1CM - 5CM	1CM - 2CM
Rated power	2200 W	1050 W
Weight	17 KG	6 KG
Dimension	400*300*280MM	300*300*200MM

The following shows only part of the profile router machine, If you want more details, please contact us.
