Two Oval Segments Redi-Lock Metal Diamond Grinding Polishing Shoe For Concrete Floor

Diamond Concrete Floor Grinding Plates are the best solution for large areas of thin coating removal, leveling and smoothing high spots in concrete, and work very well for concrete cleaning. Their segments are designed for aggressive grinding of concrete to make short work of your larger projects. These High Quality Diamond Grinding Tools are also ideal for the initial steps in concrete polishing procedures. Application for all kinds of concrete and terrazzo floors , fine grinding preparation on floor or old floor renovation before polishing. Metal bond diamonds have high strength, excellent wear resistance, and a low friction coefficient. Metal bond diamonds high grinding efficiency and low grinding force generates less heat in the grinding process.

This can decrease or avoid burns and cracks on the surface of the work piece, and decrease the equipment's wear and energy consumption. The high wear resistance can lead to good grinding quality and high grinding precision. Metal bond diamonds long lifespan and long dressing period can greatly increase the work efficiency, and improve the worker's' labor environment while decreasing the product's labor intensity.

Specifications:

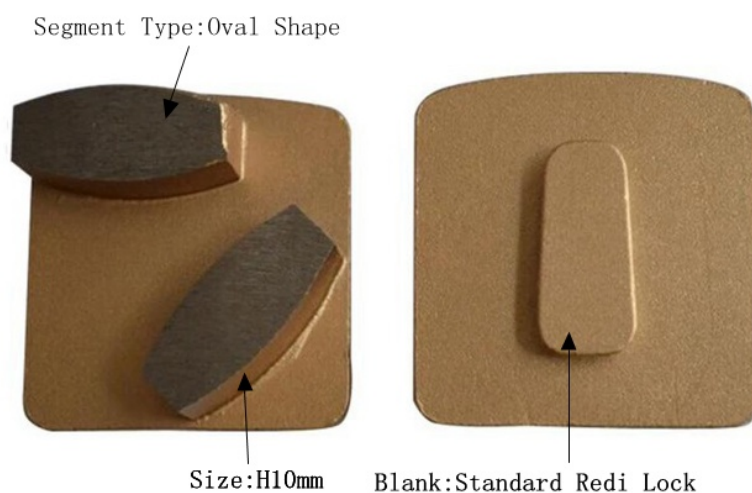

The following are normal specifications Redi-Lock Metal Diamond Grinding Polishing Shoe:

Name:	Redi-Lock Metal Diamond Grinding Polishing Shoe
Segment Grit:	16-270#etc.
Segment Size□	H10mm
Segment Shape□	Two Oval Segments
Material:	Diamond + Metal powder
Quality:	International Standard Quality
Connection:	Husqvarna Redi Lock/ Scanmaskin Redi Lock
Machine:	Husqvarna/Scanmaskin Quick Conncting Grinding Machine
Bond:	Very Soft Bond, Soft Bond, Medium Bond, Hard Bond, Very Hard Bond, Extreme Hard Bond.

Specially designed tools are available for any standard application. We can tailor your tools to your specific needs.
