

Product Description:

Electroplated saw blade is taken use of electroplated technology to produce blade.

It can be widely used in cutting granite, marble, and other stone materials with good efficiency.

BOREWAY [Electroplated Diamond Saw Blade For Supplies](#) the quality level is premium. We could produce different grit of blades to meet your need. Difference arbor sizes and segment specifications are available upon request.

Electroplated Diamond Saw Blade For Supplies, It is a diamond saw blade made by electrochemical method. The working layer of the saw blade contains diamond abrasive grains, and the diamond abrasive is bonded to the substrate by a metal bond.

Product Specification:

[Diamond Circle Saw Blades In China](#), Specification of Electroplated Diamond Saw Blade For Supplies

Saw Blade Specification	Arbor: M14
	Diameter: 180MM
	Dry Or Wet Cutting
	Technology: Electroplated
	Different sizes and shapes are available upon request

Advantage	Light and easily-carried.
	Universal wet cutting blades.
	Suitable for fast, free, smooth cutting
	Especially for cutting stones, sharpness, no crushed edge, and long service life.

Other Specification

Diameter(mm)	Hole(mm)	Grit
3inch(80)	22.23,M14,5/8"-11	50#,80#,100#,120#
4inch(100)		
4.5inch(115)		
5inch(125)		
6inch(150)		
7inch(180)		
8inch(200)		
9inch(230)		

Advantages:

profession cutting and grinding marble granite stone jade glass tile etc.Hard and brittle material

- * Dry or Wet, wet working will prolong the working life
- * Cutting marble granite natural stone engineering stone tile
- * Three reinforced diamond Stripes on both sides for smooth cutting and better finishing
- * Professional industrial Diamond electroplated on the steel core, 100% diamond exposed high efficient
- * It has high cutting efficiency, low noise, no chipping, stable and no deformation, and flexible usage. It is one of the common tools for cutting and grinding non-metal brittle materials.

Application:

Glass Cutting Blade Quartz Stone For Manufacturer

Manual, pneumatic cutting machine, angle grinder and other hand held devices

This series of electroplating products are suitable for hand-held equipment such as manual and pneumatic cutting machines, angle grinders, and professional cutting and grinding of glass materials, ceramic materials, stone materials, semiconductor materials, etc.

Note:

- 1.Check whether the saw blade is damaged before use; if it is damaged, it is strictly prohibited to use it;
- 2.The cutting machine must have a safety shield, and the operator must wear protective equipment;
- 3.When installing, keep the arrow direction marked on the saw blade consistent with the actual rotation direction;
- 4.When cutting, please do not apply side pressure or curve cutting, and the knife should be stable;
- 5.Do not cut continuously for a long time during dry cutting. The cutting machine should be cooled intermittently; for wet slice cutting, water should be added to cool it to prevent leakage;
- 6.Experts suggest that after the saw blade is installed, it should be unloaded for a few minutes. After confirming that there is no sway or jump, try a few knives on a large sea wheel or refractory brick, and then use it normally. The effect is better.

About us:

Packing □ Delivery:

PS:

- 1.Tools packing in carton cases
- 2.By Air/Sea for batch goods, Airport/Port receiving
- 3.Less than 45kg, generally delivery by express(Door to Door)□
- 4.When tools are in large quantities, they are packing in wooden cases

- For sample or small orders, products could be sent by express, TNT, DHL, UPS, FedEx, EMS etc.
- For large orders, shipping by sea or air is recommended. By our long-term cooperate agent or your appointed forward.
- By sea, port of loading: Shanghai, Ningbo, Xiamen, Qingdao etc.

Our Service:

1. Low order quantity: It can meet the test order you need.
2. Fast delivery: We get great discounts from freight forwarders.
3. OEM Acceptable: We can produce according to your samples or drawings.
4. Good quality: We have a strict quality control system. Has a good reputation in the market.
5. Good service: We regard our customers as God with a high degree of professionalism and enthusiasm.

FAQ:

1.How could we know the quality, if we want to order your products?

Please just test them with a very small order, then you will know the quality. At present,so many people in the world to use Chinese products, because of the high quality and most competitive prices. We are professional manufacturer in supplying diamond tools for more than 8 years. Anyway, confirming our products quality, a small trial order for testing will be necessary.

2.Can you offer free samples?

We don't offer free samples, according to our many years experience, we think people get the samples by paying, they will cherish and appreciate more what they get. But we are willing to give our potential customers a special discount which they are used to do a testing. It is very important to give us feedback, we appreciate it.

3.Does your company accept custom-made?

Surely, we accept it. Including differentcolor, grit etc. We also can mark your ownlogo and brand on the pad. Any new productsyou want us to produce for you, just send us your drawing or sample, we will produce the same one. We will not sell this kind of products to other customers only if we get your permission.

Logistics:

Sample order ship by DHL, UPS, FedEx, TNT, EMS etc

For mass order delivery, can be optional with terms of Exwork, FOB, CNF, CIF by air or by sea based on the buyer's forwarder or ours
