

Product Description:

Brief introduction:

Fickert segment is made of premium resin. Increase in the production, due to the higher performance of "ADR" compared to the traditional abrasive, avoiding the continuous standstill of the machine. decrease of the pressure on the heads, reducing noticeably the maintenance cost and energy. Storage for unlimited times, being stable without changes in its properties, individual identification by marking and colour code, informing about the corresponding grain.

Features:

1. The heat resistance and pressure resistance, long life;
2. Polishing uniformity, environmental protection (as compared with ordinary grinding block slight environmental pollution);
3. Easy to use, fast, polished fast, stable quality, high working efficiency, reduce downtime facelift mold time;
4. Factory direct, affordable, comprehensive and low cost.

All of our products have been strictly tested before access to market.

Other specifications can be customized according to requirements.

Specification:

Specification of resin diamond fickert abrasive:

Product name	Model	Segment Height	Length	Grit	Applicable materials
Resin diamond fickert abrasive	BW-DF-R	15-20mm	L140 L170	120 #, 220 #, 320 # 400#, 800#, 1000# 1200#, 1500#, 3000#	Ceramic tile granite marble and other stone

Other specification can be customized according to need.
