

Introduction:

Segmented diamond grinding block for concrete floor have longer life and performs better under heavier machines. These configurations along with our field tested bonds and assortment of grit sizes give you the perfect balance of production and performance.

Features:

- 1. High aggressive.
- 2. Stable performance and long lifespan.

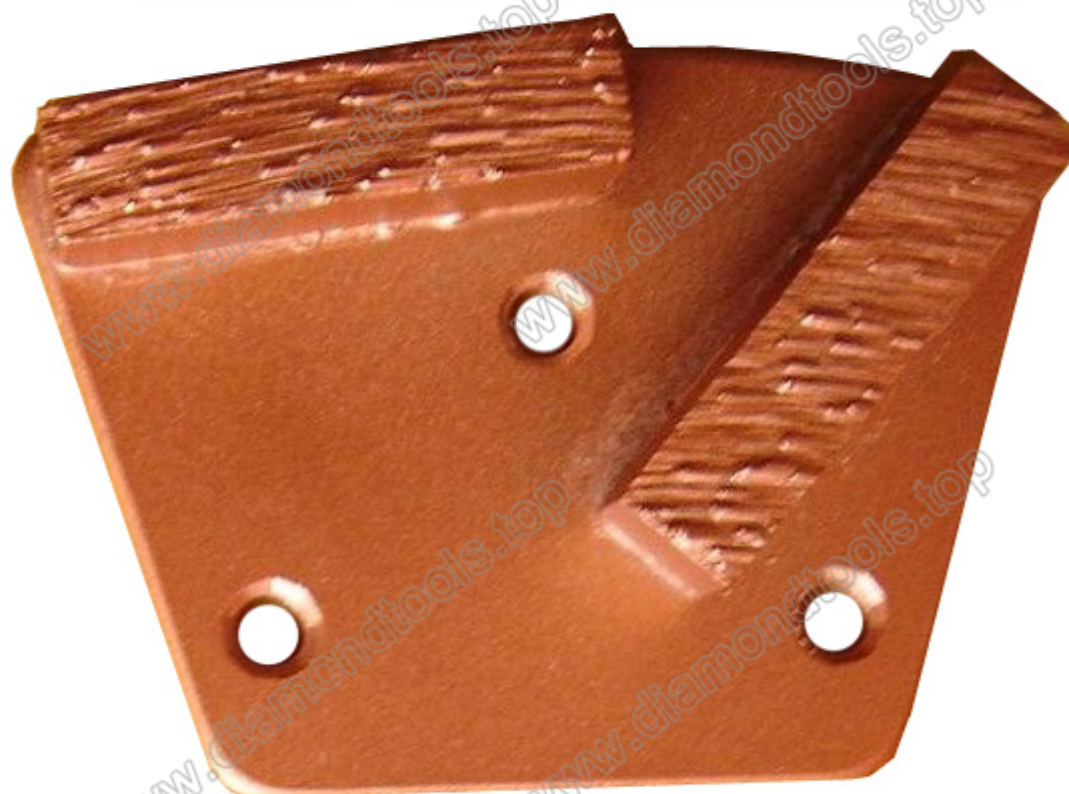

Parameters:

This is normal specification of segmented diamond grinding block for concrete floor:

Product Name	Segment Type	Bond	Grit	Applications
Diamond segmented grinding block for concrete floor	Square	Soft Medium Hard	#6, #16, #25, #30, #40, #50, #60, #80, #100, #120, #150, #170, #200	Concrete Floor

The specifications only for reference, other specifications can be customized.
