

Product Description

Silent diamond saw blade for manufacturer, adopting the design of the silencing saw blade substrate to reduce noise during the cutting process, and the orderly arranged saw blade heads make the material yield higher, and the cutting is flat and sharp.

Arix cutting segment, orderly arrangement of the cutter head is that the diamond particles are arranged in a neat and orderly arrangement in the cutter head, so that the cutting of the stone by the cutter head can repeatedly exert its sharpness, which is sharper than the general cutter head.

Feature:

1. Smooth cutting, reducing noise and friction.
2. Orderly arranged diamond particles increase sharpness.
3. Silent and non-silent blades are available for client's choice.

These diamond saw blades are highest ratio of performance to price!

FAQ

1.How could we know the quality, if we want to order your products?

Please just test them with a very small order, then you will know the quality. At present,so many people in the world to use Chinese products, because of the high quality and most competitive prices. We are professional manufacturer in supplying diamond tools for more than 8 years. Anyway, confirming our products quality, a small trial order for testing will be necessary.

2.Can you offer free samples?

We don't offer free samples, according to our many years experience, we think people get the samples by paying, they will cherish and appreciate more what they get. But we are willing to give our potential customers a special discount which they are used to do a testing. It is very important to give us feedback, we appreciate it.

3.Does your company accept custom-made?

Surely, we accept it. Including differentcolor, grit etc. We also can mark your ownlogo and brand on the pad. Any new productsyou want us to produce for you, just send us your drawing or sample, we will produce the same one. We will not sell this kind of products to other customers only if we get your permission.
