

## Product Description:

Diamond gang saw blades are one of the most widely and most advanced tools used in cutting stone blocks. The diamond gang saw blades have the characteristics of high processing efficiency, high yield, high cutting accuracy, good surface evenness, high flexibility of plate size, saving water and electricity.

The diamond blades are used on single blade gang saw machines to square blocks and cut thicknesses or on multi-blade gang saw machines for sawing marble slabs and stones. Thanks to its long experience matured all over the world.

Boreway ([China Gang Saw For Stone Cutting Manufacturer](#)) has created a complete range of diamond blades suitable for many different types of gang saw used, different materials to cut, specific quality needs and cutting speeds requested by the customers.

Other types segment of gang saw blades

	1. Cymbiform shape. The cymbiform gang saw segment is usually used for cutting travertine and the stone has holes inside which will lead to easy drop of diamond segments. For example, Turkey beige travertine, South America travertine and China black travertine, these stone is hard, abrasive, and may make the diamond segments drop from the blade during cutting.
	2. Trapezoid shape. Today more and more manufacturers are inclined to make it trapezoidal, trapezoid gang saw segment becomes mainstream shape. An advantage of this shape is that the cutting resistance on the diamond segment sizes can be reduced, the segment won't drop easily, and the cutting efficiency is highly improved.
	3. Cuboids shape. Normally the shape is cuboids, this is the earliest shape invented in Italy and Portuguese which is still popular nowadays.

## Specification:

### Specification of Electroplated Diamond Saw Blade For Supplies:

Steel Blank	Blade Height(mm)	180
	Overall Length(mm)	3950,4100 4400,4600
	Blade Thickness(mm)	1.5,1.75, 2.0, 2.5
Segment Dimension	Length(mm)	20-50
	Width(mm)	2.4/2.2, 2.8/2.4, 3.5/2.9, 4.2/3.6

## Reference Data

Cutting Material	Cutting Area	Cutting Speed
Beige Stone SerieBeige Stone Series	4000M <sup>2</sup>	14-20cm/h
Emperador Stone Series	20000M <sup>2</sup>	12-18cm/h
Serpent granite Series	45000M <sup>2</sup>	16-18cm/h
Sandstone Series	8000M <sup>2</sup>	45-80cm/h
Artificial Stone Series	10000M <sup>2</sup>	25-35cm/h

**Other Specifications Are Available Upon Customers' Requests.**

### Diamond Gang Saw

Boreway has created a complete range of diamond blades suitable for many different types of gang saw used, different materials to cut, specific quality needs and cutting speeds requested by the customers.

### Advantages:

1.Long Life.

- 2.High Efficiency.
- 3.Narrow Saw Kerf.
- 4.Smooth and fast cutting
- 5.Longer life than common gang saw segments.
- 6.Small cutting slot ,less waste of cutting object.
- 7.cutting speed 25%-35% increased than normal type.
- 8.Low Energy Consumption And Comprehensive Cost.

**Wholesale Diamond Gang Saw Blade For Stone Cutting** \*Customized specifications are acceptable

### **Application:**

Specially used for processing artificial granite stone slabs.

Suitable machines: Applicable to various gang saw machines.

- a. Diamond gang saw segment for cutting soft marble (beige/cream, white ect.)
- b. Diamond gang saw segment for cutting medium hard marble (Indian green, dark Indian green, Serpegg-lante, new portolo, emperador light etc.)
- c. Diamond gang saw segment for cutting artificial stone and quartz stone.

## About Us:

## Packing & Delivery:

- 1.Tools packing in carton cases;
- 2.Large machines packing in wooden cases;
- 3.When tools are in large quantities, they are packing in wooden cases.

- For sample or small orders, products could be sent by express, TNT, DHL, UPS, FedEx, EMS etc.
- For large orders, shipping by sea or air is recommended. By our long-term cooperate agent or your appointed forward.
- By sea, port of loading: Shanghai, Ningbo, Xiamen, Qingdao etc.

## Our Service:

1. Low order quantity: it can meet the test order you need.
2. Fast delivery: We get a big discount from the freight forwarder.
3. OEM acceptable: We can produce according to your samples or drawings.
4. Excellent quality: We have a strict quality control system. Has a good reputation in the market.
5. Quality service: We treat customers as God with a high degree of professionalism and enthusiasm.
