

Descriptions:

- **Size:** D50x40Tx10H
- **Processing Technology:** Sintering
- **Type:** Diamond Standard Stubbing Wheel
- China Factory **Sintering Standard Stubbing Wheels For Marble**, is specially designed for calibrating granite, marble, ceramics and well-designed stone processing, providing high precision and smooth surface
- Be designed for stock removal on granite marble by grinding away an excess stone. It is the fastest way to remove material after cutting out sinkholes.
- **Sintering Standard Stubbing Wheels For Marble** are used for very aggressive grinding applications and removal of stock on various materials including granite, concrete, limestone, marble, block, terrazzo and more.

Specification:

The normal size of China Factory **Sintering Standard Stubbing Wheels For Marble**:

Diameter	Segment Height	Inner Hole
50mm	40mm	10mm

To improve the efficiency of standard stubbing wheel,here some machine parameters we suggest:

RPM	Feed Rate	Recommended Depth
4500	400-600MM/Minute	3MM

More normal specification of diamond standard stubbing wheel we supply:

Diameter	50mm, 86mm, 90mm, 100mm
Segment Height/MM	20mm, 30mm, 40mm
Inner Hole	10mm, 50mm
Connection	Φ10-2+2Hole Φ10-3+3Hole Φ50-3+3Hole
Grit No.	30/40#, 60#, 100#, 200#
Machine	CNC Machine & Radial Arm Machine

Feature:

- 1.Sintering Standard Stubbing Wheels without stone edge damage.
- 2.High efficiency & long lifespan and fast milling speed.
- 3.Perfect balance with zero vibration and stable performance.
- 4.Comparing to other drum wheels, it could avoid breaking the slab.
- 5.High Quality: Unique design has good clarity, can easily remove dust, low noise and safety

Sintering Standard Stubbing Wheels For Marble

**Easy Dust Removal &
Low Noise And Safety**

**Accuracy In Shape
And Size & High Efficiency**

Good Performance & Long Lifespan

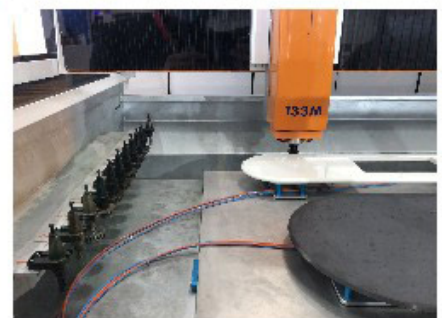

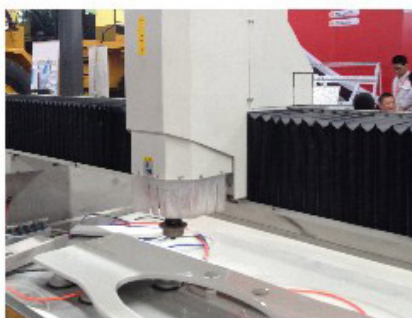

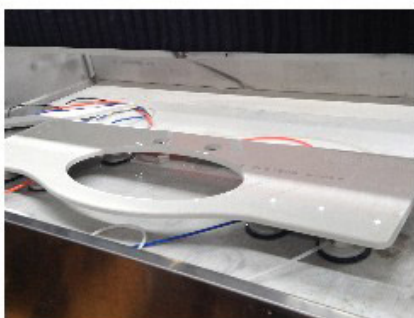

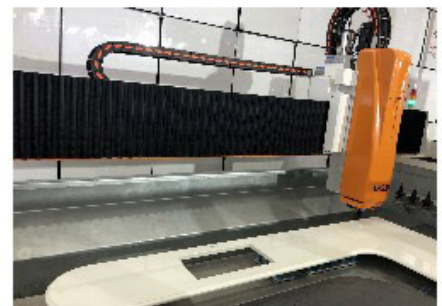

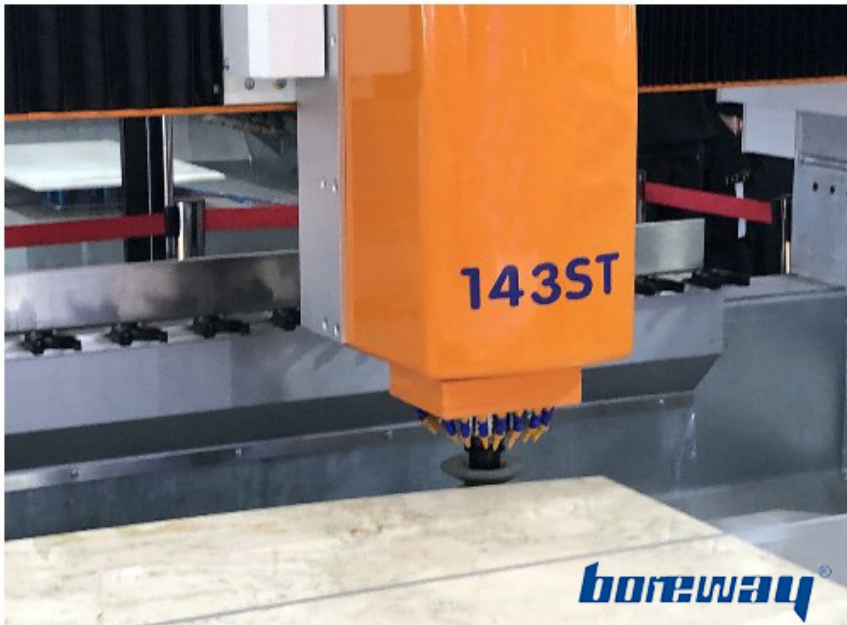

Application:

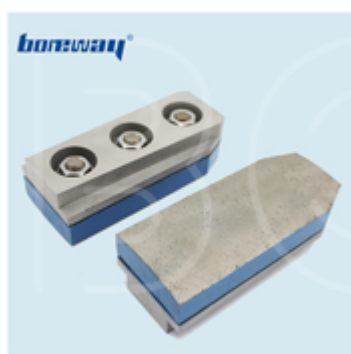

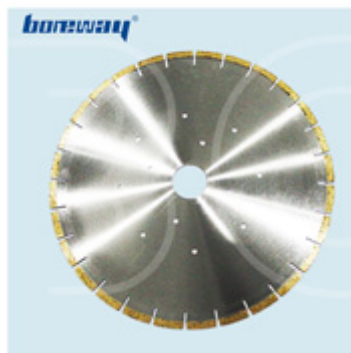

Use Type: Sintering Standard Stubbing Wheels For Marble is Wet Use

1. **Sintering Standard Stubbing Wheels For Marble**, is used on CNC machine or router machines
2. Be used for sink hole on the wash basin, bathtub, sink and other products
3. Also can use for calibrating the stone slab, these wheels have large segments for fast stock removal.
