

Descriptions:

Star type bush hammer roller for granite, concrete, marble, sandstone and other stone.

Star diamond bush hammer disc for the stone finishing process to get litchi in anger grinder.

It can be used on 125mm and 150mm diamond star shape bush hammered roller disk, double-layer grinding disc and single-layer grinding disc, as well as larger diameter grinding discs, which can be customized according to customer requirements.

Feature:

1. 10 teeth carbide alloy segment.
2. [Star type diamond bush hammer tools](#) can create litchi effect.
3. Different sizes can be customized according to customer requirement.

Specifications:

The Followings Are The Normal Specifications Of Our 10 Teeth **Star Type Bush Hammer Roller For Granite:**

Diameter	Segment Shape	Segment Quantity	Machine
125mm,150mm (Other Dimeter Can Be Customized)	Star	10S	For Anger Grinder

Specially designed tools are available for any standard application. We can Tailor your tools to your specific needs.

Product Details:

Carbide Alloy Tip Star Type Bush Hammer Roller For Granite

Applications:

Type: Star bush hammer roller.

Application: For concrete, granite, marble, sandstone and other stone.

Kindly Noted, When Place Order Please Inform The Following:

1. Stone Effect □ Sandblasted Surface/Litchi Surface □

2. Use Object (Marble, Granite Or Other Stone, Concrete And Other Stone)

3. Segment No.(30s, 45s, 60s, 72, 99s, Star, Steel Dense Tooth, Vacuum Brazing)

4. Diameter of the Bush hammer plate(125mm, 150mm, 200mm, 250mm, 300mm, 350mm, etc.)

5.Base Style(U

Shape, Frankfurt, Fickert, Lavina, Husqvarna, HTC, Klindex, Werkmaster, Diamatic, Etc.)

6.Machines (Hand Held Grinders, Automatic Bush Hammering Machine, Automatic Grinding Machine, Angle Grinder, And Floor Grinders)

Base Style(U

Shape, Frankfurt, Fickert, Lavina, Husqvarna, HTC, Klindex, Werkmaster, Diamatic, Etc.)

FAQ:

1.What is the bush hammer tool?

Bush Hammers have been around a long time and have proven the easiest way to texturize stone, concrete & asphalt.

2. What can Bush Hammers do?

Surface Prep for coatings.

Quickly expose large aggregate.

Remove hard coatings and overlays.

3.How to use and maintain bush hammer tool?

Do not apply too much pressure on the bush hammer. This will prevent the roller from stopping and thus decrease the life span of the tungsten steel.

After each use, please clean up rollers, dry and apply oil to the spindles. It will be ideal to

submerge the rollers in oil to prevent spindle rust.

Roller tips can be re-dressed with diamond blades when they become inefficient.
