

Feature:

1. [Diamond Segment Cutting Supplier China](#) works in low noise, little pollution and small cutting slot which ensures maximum use of stone and uniform thickness.
2. [Stone Cutting Segment Wholesales](#) is design makes fast diamond exposed and cutting speed with high cutting efficiency. Besides, easing vibration and noisy reducing.
3. The diamond segment cutting supplier china adopts the design with slope, which does not rub the saw blade matrix during cutting, with low resistance and fast cutting.

Product Description

The cutter head adopts the design with slope. The thickness of both sides of the cutter head is different, which is 10mm and 11mm.

The thicker side is connected with the saw blade. The thickness of the cutter head is normally greater than the thickness of the substrate, so as not to rub the saw blade substrate during cutting, with small resistance and fast cutting.

Product Specification:

The following are normal specifications **stone block cutting diamond segment** :

Product Name	Segment Size			Application
	L	W	H	
Stone Block Cutting Diamond Segment	30MM	10/11mm	30MM	Granite, Sandstone, Various Hard Stone

Other specifications may be available as per customer's demand.

Stone Saw Blade Segment Shape

For Granite

For Marble

Professional Diamond Segment for Cutting Stone Block Manufacturer

Diamond Segment For Granite

**High Grade Diamond
Particles + Metal Powder**

Segment Size: 30*10/11*30mm

Application:

Diamond saw blade segment for granite, sandstone, various hard stone.

Stone block cutting diamond segment for bridge cutting machine and single arm machine.

Diamond segment cutting supplier china using in block cutting for 900-3500mm circular saw blades for block cutting.

FAQ

1. Are you a trading company or a diamond tool manufacturer?

We are a diamond tool manufacturer, Nanan Boreway Co., Ltd. is a professional and experienced diamond tool manufacturer in China.

We have a relative product price advantage, maintain controllable product quality, high

quality and stability of diamond raw materials.

2. Are you professional

All of our company's products are diamond tools or related machinery products. They are highly professional and have maintained their pre-industry level. We are more professional and can help you find the ideal ideal for your market (dealer) or project (end user). Diamond tools.

3. Will the company reduce cost and quality for price?

To reduce other unnecessary costs

To find good agents for lower shipping fees

To find the right suppliers of product materials

It will never reduce the quality of the product. We can optimize the product process and take some measures to protect the quality of the product.

Courier Express
