

Introduction:

Stone diamond cut off wheel-resin bond are used to grinding and polishing the surface of stone like granite,marble etc.Stone diamond cut off wheel-resin bond also can removal the surface's impurity of floor,concrete and so on.Stone diamond cut off wheel-resin bond has high efficiency and long lifespan.

Wet use only.

Feature:

1. High grinding efficiency
2. Good polishing effect
3. Good performance and long lifespan

Specification:

The normal specification of stone diamond cut off wheel-resin bond:

Code No.	Diameter	Grit No.	Back	Type
BW-DPW-03-01	100mm (4")	#500, #800, #1500	Velcro or Plastic Resin with Screw Holes	Bond
BW-DPW-03-02	125mm (5")			
BW-DPW-03-03	150mm (6")			
BW-DPW-03-04	180mm (7")			
BW-DPW-03-05	200mm (8")			
BW-DPW-03-06	250mm (10")			

The above specification just a reference for customers.Other specification can order by clients.
