

## Introduction:

Diamond CNC Screw Drill Bit is widely used for milling slots on stone slabs such as kitchen panel, washbasin, etc. This screw core drill bit is

fabricated with a 1/2" Gas thread connection, easy bit changing, aggressive diamond bond for fast cutting and dependable performance.

It is a good advantage to cool and excretion because there are some water hole in side.

## Features:

1. High drilling efficiency.
2. Good balance and stable performance.

## Specifications:

The followings are the normal specifications of our Diamond CNC Screw Drill Bit:

Product Name	Type	Diameter	Segment Length	Thread	Connect Shaft
CNC screw core drill bit	Hollow Solid	20mm	20mm 30mm	M12	1/2" G65L 1/2" G100L

The above specifications are for reference, other specifications can be ordered by customers.
