

Introduction:

Litch Surface Bush Hammer Machine For Concrete D480*12T*45s is used on manual grinding machines or auto/semi-auto bush hammered machines to process bush hammered litchi surface on concrete granite, marble and other stone surface.

The processing surface can be very uniform and seems real and natural.

The rollers can be changed conveniently, greatly reduced the production costs.

Features:

1. **Litch Surface Bush Hammer Machine For Concrete D480*12T*45s** for granite has high grinding efficiency and long lifespan.
2. Uniform, real and natural processing surface.
3. Much lower production costs compared with traditional processing method.

Specifications:

The followings are the normal specifications of our **Litch Surface Bush Hammer Machine For Concrete D480*12T*45s**:

Product Name	Outer Diameter		Roller Quantity	Segment Quantity	Connection
	Inch	mm			
Bush Hammer Plate	5	125	3	30	M14
	6	150	4	45	M16
			3	30	5/8''-11
	8	200	6	45	42mm
			4	30	47mm
	10	250	8	45	50mm
			5	30	
	12	300	10	45	
			6	30	

The above specification just a reference for clients. Other specifications can be ordered by customers.
