

## Introduction:

Three-dimensional diamond powder mixing mixer is mainly suitable for mixing evenly diamond products, metallurgy, chemical industry, powder or small particles stirred.

### Features:

1. The three-dimensional space, six degrees of freedom, acceleration, deceleration, organic variety of motion jitter and rock combined.
2. mixing time arbitrarily set, mixing speed is adjustable.
3. mixing uniformity, high efficiency, reduce oxidation powder.
4. We have already registered and set up his own brand. Therefore, we can guarantee the quality of our products. In addition, our dedication to provide you with quality professional sales services. In addition, we also produce their desired product according to customer needs.
5. Our products are exported to more than 20 different countries as Brazil, India, Australia, the United States, Ukraine, Italy, Poland, and Russia. In these overseas markets, we enjoy a good reputation, and got them good feedback.

### Specifications:

The following are the conventional specifications of our three-dimensional diamond powder mixing mixer.

power supply	380V, 50 / 60Hz, 3 phases
Motor Power	1.5 KW
Volume	18-20L / barrel
Tank mixed form	stainless steel
Output speed	28 r / min
Mixing time	Adjustable (1 second to 100 hours)
Dimensions	850mm * 850mm * 1100mm
Weight	250Kg

For some special requirements of the customer specifications, we also follow customized offer.
