

Introduction:

The BWM-EM02 three-side edging machine for diamond saw blade is designed for edging the diamond segments of diamond saw blades, making the blade can be used directly after leaving the factory.

Features:

1. Bag type dust collector, dust-free operation is very environmentally friendly.
2. The blade automatic alignment system, to effectively address the oxide layer welding clear edge.
3. Speed, high efficiency, the appearance of the blade meet export standards.
4. User-friendly design, high degree of automation, to minimize operator labor intensity.
5. High efficiency, daily output 300-400 pieces.

Specifications:

The followings are the normal specifications of our three-side edging machine for diamond saw blade:

Parameters	Numerical
Type	BWM-EM02
Wheel diameter	ø200mm
Edging diameter	Ø250mm - Ø600mm
Power	4 KW
Dimension	1400mm*800mm*1200mm
Power supply	380V,50HZ
Daily output	300-400 pcs/day
Weight	360 Kg

The above specifications are for reference, other or special specifications can be ordered by customer s.
