Introduction:

The BWM-EM02 three-

side edging machine for diamond saw blade is designed for edging the diamond segments of diamond saw blades, making the blade can be used directly after leaving the factory.

Features:

- 1. Bag type dust collector, dust-free operation is very environmentally friendly.
- 2. The blade automatic alignment system, to effectively address the oxide layer welding clear edge.
- 3. Speed, high efficiency, the appearance of the blade meet export standards.
- 4. User-friendly design, high degree of automation, to minimize operator labor intensity.
- 5. High efficiency, daily output 300-400 pieces.

Specifications:

The followings are the normal specifications of our three-side edging machine for diamond saw blade:

Parameters	Numerical
Туре	BWM-EM02
Wheel diameter	ø200mm
Edging diameter	Ø250mm - Ø600mm
Power	4 KW
Dimension	1400mm*800mm*1200mm
Power supply	380V,50HZ
Daily output	300-400 pcs/day
Weight	360 Kg

The above specifications are for reference, other or special specifications can be ordered by customer s.
