

Introduction:

Electroplated diamond triangular polishing pad is perfect for using on oscillating hand polishers. Made for granite, marble tile or any other stone material. Makes corner polishing easy with kitchen countertop fabrication.

Features:

1. High polishing efficiency.
2. Long lifespan and stable performance.

Specifications:

Diamond Particles Electroplating Triangular Burnishing Disc

Code No.	Side Length(mm)	Grit No.
BW-DTP-002	80*80*80mm	50# 100# 200# 400#

The parameters only for reference, other specifications are available upon request.
