

Product Description

1. For stone surface processing, making stone products with bushing hammering effect.
2. **Diamond vacuum brazing bush hammer roller** removes old glues and resin coatings, especially thick resin.
3. For preparing the floor before laying new coatings.
4. Exposing aggregate in concrete floors in preparation for concrete polishing.
5. Hot sell bush hammer cutter creates a non-slip surface on granite and marble, breaking up the standard diamond inaccessible coating and preparing the surface for application of a thin set of overlays.

Feature:

1. The advantage of using it as a scare machine is that it is aggressive, but gentle enough not to "dig" into the floor surface uncontrollably.
2. These carbide tips repeatedly strike the stone or concrete surface, creating a rough, pockmarked texture that looks like naturally weathered rock.
3. Wet use is highly recommended, the more water the better. Do not apply too much pressure to the sleeve hammer. This will prevent the rollers from stopping, which will reduce the life of the tungsten.

Product Specification:

The followings are the specifications of **diamond vacuum brazing bush hammer roller**:

Working Condition	Effect	Material	Machine
Wet and Dry	Sandblasting Finish	Diamond Powder	Angle Grinder, Hand Held Machine, Floor Grinding Machine

Other specification of bush hammer roller:

Model	Out Diameter	Wheel Width	Segment Quantity	Segment Diameter	Remark
BW-BHR4530	45	22	30	3.6 4.5 4.6 4.7 6.0 8.0	With Stand Without Stand

Sandstone

Sandblasted Surface

FAQ

1. Are you a trading company or a diamond tool manufacturer?

We are a diamond tool manufacturer, Nanan Boreway Co., Ltd. is a professional and experienced diamond tool manufacturer in China. We have a relative product price advantage, maintain controllable product quality, high quality and stability of diamond raw materials.

2. Are you professional?

All of our company's products are diamond tools or related machinery products. They are highly professional and have maintained their pre-industry level. We are more professional and can help you find the ideal ideal for your market (dealer) or project (end user). Diamond tools.

3. Will the company reduce cost and quality for price?

To reduce other unnecessary costs

To find good agents for lower shipping fees

To find the right suppliers of product materials

It will never reduce the quality of the product. We can optimize the product process and take some measures to protect the quality of the product.
