Production Description:

Introduction □

These diamond drill bits are usually used for stone, concrete, tile and masonry etc. The diamond drill bits are used on CNC machine and protable drill machine, each center has a water hole drill is conducive to chip and cooling, and thus has a long service life.

Features:

- 1. Applicable to a variety of handheld drill machine or CNC machine tools.
- 2. Using high-quality diamonds and high-speed steel pressing and sintering, can withstand high speed drilling.
- 3. The diamond protrusion uniform, sharp, high drilling efficiency.

Advantage□

Our products export to Brazil, India, Australia, USA, Ukraine, Italy, Poland, Russia, more than 20 different countries. In these overseas markets, our diamond drill bits enjoy a good reputation, we get good feedbacks about their corresponding test result, and also a long lifespan. so, we are confident in our products quality.

All of our our products have been strictly tested before access to market. Other specification can be ordered by client.

Detailed Images:

Diamond drill bits

The following is the normal specification of Diamond drill bits [

Name	Diamond drill bit
Model	BW-DDB
Diameter	6mm-500mm (can be customize)
Length	100mm-1000mm (can be customize)
Applicational	Stone,concrete,tile and masonry.etc
Machine	CNC machine and protable drill machine

Diamond construction drill bit

Diamond center drill bit

Diamond long pipe drill bit

Diamond coring drill bit

High strength diamond PC drill bit

Above is a picture of our conventional diamond drill bits,

Other specifications can be customized according to requirements.
