

Описание товара:

After improvement, the noise impact of the **factory price diamond gang saw segment** installed on the gang saw is reduced, the vibration is also reduced, and the flatness of the stone is improved.

The exposure speed of diamond particles on the cutter head is fast, which makes your processing speed faster, improves the efficiency of the machine, and reduces the time and cost.

In order to assist in the cutting of stone blades, water is used as an abrasive medium to help cooling down the blade instead of steel bits. **gang saw segment for marble block processing**, In addition to gang saw heads, we also make saw blade heads, as long as you need them, we will provide you with products.

Характерная черта:

1. The improvement of sharpness reduces the waste rate of stone materials, cuts stone blocks evenly, and reduces waste
2. Each long working life gang saw segment can be well welded to the base of the gang saw, and there is no unusable cutter head
3. The surface of the wet used gang saw segment is polished, it is not easy to increase the difficulty of welding, and it is easy to install.
4. The product has been tested for many times, and the sharpness has been continuously improved to improve the cutting speed of processing for you.
